

Chief of Reproductive Endocrinology and Infertility at MASS GENERAL: Assistant or Associate Professor

The Department of Obstetrics and Gynecology at Massachusetts General Hospital seeks a Division Chief for Reproductive Endocrinology and Infertility. The Division Chief will be expected to lead clinical care in the division as well as help advance its research and teaching missions.

The desired candidate will have strengths and demonstrated success in the provision of clinical care, conduct of research, teaching and mentoring. The position includes clinical responsibilities at Massachusetts General Hospital and as a teaching hospital, teaching responsibilities for Harvard Medical School. Members of the division of REI and Department of Ob/Gyn deliver world-class reproductive and fertility care with a personal touch to a diverse patient population on the main campus in Boston and at satellite clinics within the MGH network. In addition to expertise in all aspects assisted reproductive technology, the division provides expertise in reproductive surgery and menopause. The division maintains a fellowship program in REI that includes a Surgical Scholars track and is also engaged in the teaching of medical students and residents.

Massachusetts General Hospital is a 900-bed medical center, offering diagnostic and therapeutic care in virtually every specialty and subspecialty of medicine and surgery. Innovative programs within the hospital as well as the Department of Ob/Gyn are dedicated to building a diverse community of physicians and scientists, fostering a culture of inclusion and respect, and providing equitable, innovative care that improves the lives of the people of our community.

We seek individuals who will actively contribute to our core values of diversity, openness, innovation, and clinical and academic excellence. All providers who share those commitments, especially those from diverse backgrounds, are encouraged to apply. *We are an equal opportunity employer and all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, disability status, protected veteran status, gender identity, sexual orientation, pregnancy and pregnancy-related conditions or any other characteristic protected by law.*

Competitive salary and opportunities for teaching, professional development and interdisciplinary collaboration are available. Interested candidates should submit a current CV to the address below. Letters of interest summarizing clinical experience, research interests, and leadership roles are encouraged.
