

Dana-Farber Brigham Cancer Center Radiation Oncologist

The Department of Radiation Oncology at Brigham and Women's Hospital and Dana-Farber Cancer Institute is recruiting an MD, DO or DO/PhD, MD/PhD, a board-eligible or board-certified radiation oncologist for a clinical, academic rank at the Instructor, Assistant Professor, or Associate Professor full or part-time level at Harvard Medical School, commensurate with the candidate's experience and track record. Candidates must have completed their residency in an ACGME-accredited radiation oncology program and/or fellowship in an accredited US training program and have a track record of excellence in clinical care and research.

The candidate must have exceptional clinical and interpersonal skills and a desire to work as part of a collegial, collaborative, multi-disciplinary team. The ideal candidate will also contribute to our department's research and teaching missions. The clinical site(s) with emerging needs include Adaptive Radiotherapy (including MR-LINAC), Genitourinary malignancies, Sarcoma, Lymphoma, CNS, and/or Gastrointestinal malignancies. This job could be situated at our main campus or network locations. Candidates based primarily in a network location would have a part-time academic title at Harvard Medical School.

Please upload a curriculum vitae, the names of three references, and a cover letter summarizing your clinical and research interests/background addressed to the Chair of the search committee:

Dr. Rinaa Punglia
Associate Professor, Department of Radiation Oncology
Brigham and Women's Hospital/Dana-Farber Cancer Institute
Harvard Medical School

The Department of Radiation Oncology is affiliated with Harvard Medical School. It is a combined effort between the Dana-Farber Cancer Institute, Brigham and Women's Hospital, and Boston Children's Hospital with locations in local communities at Milford, Weymouth, and Mansfield, Massachusetts. Current facilities include 13 linacs, including a Varian Ethos, an MR-linac, 2 HDRs units with a dedicated CT scanner, a Co-60 TBI unit, 7 CT simulators, and an MR-simulator/procedure space. State-of-the-art pre-clinical focal irradiation facilities are also available. The department also supports an affiliate in Stamford, CT, and an international affiliate in Bermuda. *We are an equal opportunity employer and all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, disability status, protected veteran status, gender identity, sexual orientation, pregnancy and pregnancy-related conditions or any other characteristic protected by law.*

MD, DO or DO/PhD, MD/PhD, board-eligible or board-certified radiation oncologist.
