

Assistant Professor of Pathology Massachusetts General Hospital (MGH)

The Department of Pathology seeks applications for a tenure-track faculty position at the Assistant Professor level. The successful candidate will occupy Department of Pathology laboratory space in the Molecular Pathology Unit adjacent to the MGH Center for Cancer Research. We seek outstanding individuals with MD, PhD, or MD-PhD degrees to establish a strong experimental and/or computational research program, with preference for investigators focusing on research relevant to cancer. The successful candidate will also participate in teaching activities at MGH and HMS.

Candidates should submit a curriculum vitae, list of publications, 3-page statement of research interests and a brief statement of your personal approach to diversity and inclusion. Four letters of recommendation will be requested via the Interfolio search portal.

Applications should be submitted no later than November 1, 2023.

Apply at: <https://apply.interfolio.com/132298>

Please address your materials to:

Mario L. Suvà, MD, PhD
Co-chair, Experimental Pathology Search Committee
Massachusetts General Hospital
149 13th Street
Charlestown, MA 02129

Please use the Interfolio link to submit your materials.
Questions can be addressed to ssmith6@mgh.harvard.edu

Applications from women and underrepresented candidates are strongly encouraged.

We are an equal opportunity employer and all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, disability status, protected veteran status, gender identity, sexual orientation, pregnancy and pregnancy-related conditions or any other characteristic protected by law.
