HARVARD MEDICAL SCHOOL
TEACHING HOSPITAL

ALS Neurologist / Clinical Trialist Massachusetts General Hospital, Neurology

The Department of Neurology at Massachusetts General Hospital is recruiting a board certified or board-eligible Neurologist at the level of Instructor, Assistant Professor, or Associate Professor to join the Sean M. Healey & AMG Center for ALS and will be an integral part of the ALS multidisciplinary care team and a clinical trialist as part of the Neurological Clinical Research Institute based within in the Department.

Qualified applicants should have advanced training in Neuromuscular Medicine and clinical research experience as evidenced by field work, peer-reviewed publications, and grant-supported activities. Applicants should have a completed a neurology residency in a major teaching hospital and should be familiar with working with neurology residents, interns and fellows within an academic neurology department in a general hospital setting. This position will be based at MGH. An appointment at the Harvard Medical School along with a corresponding hospital appointment will be commensurate with experience, training, and achievements. In addition, it is expected that the candidate will engage in teaching in the Harvard community with a minimum of 50 hours required per year. Women and minority applicants are strongly encouraged to apply.

Interested candidates should submit a c.v. and cover letter to:

James Berry, MD, Division Chief, ALS and Motor Neuron Diseases via email at

NCRI-Info@mg.harvard.edu

We are an equal opportunity employer and all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, disability status, protected veteran status, gender identity, sexual orientation, pregnancy and pregnancy-related conditions or any other characteristic protected by law.
