

Massachusetts General Hospital
Mass General for Children
Pediatric Urology

The Department of Urology at Massachusetts General Hospital (MGH) and Mass General for Children (MGfC) are seeking an outstanding candidate for a full-time appointment as an Instructor, Assistant Professor or Associate Professor to join our growing Pediatric Urology program. This exciting opportunity includes both an MGH and Harvard Medical School appointment. MGfC is part of a large network that provides care throughout communities in Eastern Massachusetts and Southern New Hampshire. Our pediatric urologists work closely with colleagues in all pediatric subspecialties, while engaging in supervision and teaching of medical students and trainees. Administrative support is provided by both the Department of Urology and the MGfC Surgical Services. Participation in clinical and/or basic science research is encouraged.

MGfC is the only children's hospital within Mass General Brigham, an integrated healthcare system that includes 14 hospitals in Massachusetts and New Hampshire with 15,000 deliveries and a provider network of greater than 300 pediatricians.

The MGfC Division of Pediatric Urology is dedicated to providing the highest level of care, and offers robotic and minimally invasive surgery, state of the art radiologic imaging, video-urodynamic testing, and prenatal consultation. Candidates with strong clinical skills in Pediatric Urology and a zest for collaborative and innovative thinking are encouraged to apply. Requirements include an MD degree, eligibility for medical licensure in the Commonwealth of Massachusetts, Board certification in Urology, and subspecialty certification/eligibility in Pediatric Urology.

Academic rank at Harvard Medical School will be commensurate with experience, qualifications, and achievements.

Applicants should send a letter of interest and their curriculum vitae to:

Jack S. Elder, MD
Chief, Pediatric Urology
Mass General Hospital
55 Fruit Street, WRN 11
Boston, MA 02114
Email: jselder@mgh.harvard.edu

We are an equal opportunity employer, and all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, disability status, protected veteran status, gender identity, sexual orientation, pregnancy and pregnancy-related conditions or any other characteristic protected by law.
