

## Pediatric Hospitalist – Boston Children’s Hospital

The Division of Medical Critical Care within the Department of Pediatrics at Boston Children's Hospital and Harvard Medical School is recruiting a Pediatric Hospitalist with board certification/eligibility in Pediatrics or Pediatric Hospital Medicine as a full or part-time attending physician in the Intermediate Care Unit.

This attending physician role directs clinical teams made up of pediatric residents and advanced practice clinicians in the management of patient care. The Intermediate Care Unit is a 24-bed “step-up” unit that provides intensive but noninvasive respiratory and nursing care for patients with severe acute or acute on chronic diseases, caring for all ages and a broad range of primarily medical disorders. Boston Children’s is an independent, freestanding quaternary care children's hospital in an urban setting. The position includes an academic appointment at Harvard Medical School at the level of Instructor, Assistant, or Associate Professor. The ideal candidate will have a portfolio of research, quality improvement or educational accomplishments or scholarly interests which they wish to continue to pursue.

Interested candidates should send a personal statement with clinical and non-clinical interests, three potential referees and Curriculum Vitae to Christiana Russ, MD. ([christiana.russ@childrens.harvard.edu](mailto:christiana.russ@childrens.harvard.edu)).

We are an equal opportunity employer and all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, disability status, protected veteran status, gender identity, sexual orientation, pregnancy and pregnancy-related conditions or any other characteristic protected by law.
