

Boston Children's Hospital Department of Psychiatry and Behavioral Sciences is seeking a Sports Psychologist to work within the Behavioral Health Services at The Micheli Center for Sports Injury Prevention in the Sports Medicine Division of the Orthopedic Center in Waltham, and Norwood MA.

This 30-hour position will work in a co-located behavioral health team that serves children, adolescents, and adults at The Micheli Center for Sports Injury Prevention in the Sports Medicine Division of the Orthopedic Center. The psychologist will work within a multidisciplinary team providing outpatient consultation and empirically-based treatment to athletes coping with sports related injuries.

Graduation from an APA/CPA-approved doctoral program and internship is required. Appointment at Harvard Medical School will likely be at the Instructor or Assistant Professor level. It is anticipated that this clinician will provide treatment services within interdisciplinary sports medicine clinics in both Waltham and Norwood. The position will include opportunities for teaching, research, and community outreach.

The Micheli Center for Sports Injury Prevention seeks to advance the field of sports medicine by revealing current injury patterns and risk factors while developing new methods, strategies, and technologies for preventing injuries. Both the Waltham and Norwood locations provide comprehensive evaluations and exercise prescription plans as well as private and group strength training. Additionally, the centers include examination and treatment rooms, on-site physical therapy, and offices for sports psychology, mental skills, and nutrition.

Letters of application detailing relevant experience and a recent CV should be sent electronically to Cleo Hereford, Department of Psychiatry and Behavioral Science via e-mail (cleo.hereford@childrens.harvard.edu).

We are an equal opportunity employer and all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, disability status, protected veteran status, gender identity, sexual orientation, pregnancy and pregnancy-related conditions or any other characteristic protected by law.
