THE FACULTY OF MEDICINE
Harvard University

HMS/HSDM Faculty Council

Breakout Group Directions

- **Choose a spokesperson** to represent the group when it's time to report back to the full Council.

Questions to Discuss

- How do we best communicate ourselves and our work to the world?
- If time for those interested in delving deeper:
 - How can we foster a community specifically to address major societal challenges and communicate them publicly in a way that fosters trust in science and medicine (pandemics, aging, health disparities, climate change, reproductive rights)?
 - What are concrete action items that we can do as a faculty council to foster these aims?
